

Percentage of high school students who engaged in other health behaviors, by type of grades earned (mostly A's, B's, C's, or D's/F's) — United States, National Youth Risk Behavior Survey, 2015

Other Health Behaviors	Percentage of students who engaged in each risk behavior, by type of grades mostly earned in school†				Significant Association*
	A's	B's	C's	D's/F's	
Oral Health Care					
Did not see a dentist (for a check-up, exam, teeth cleaning, or other dental work during the 12 months before the survey)	17	25	32	43	Yes
Sleep					
Did not have 8 or more hours of sleep (on an average school night)	71	72	75	80	Yes
Sun Safety					
Used an indoor tanning device (such as a sunlamp, sunbed, or tanning booth [not including getting a spray-on tan], one or more times during the 12 months before the survey)	8	7	6	11	Yes
Had a sunburn (including even a small part of the skin turning red or hurting for 12 hours or more after being outside in the sun or after using a sunlamp or other indoor tanning device, one or more times during the 12 months before the survey)	66	55	47	46	Yes
Food Allergies					
Avoid foods because eating the food could cause an allergic reaction (such as skin rashes, swelling, itching, vomiting, coughing, or trouble breathing)	17	15	15	21	No
Asthma					
Had ever been told by a doctor or nurse that they had asthma	21	23	23	33	Yes

† Percentage of students who engaged in each risk behavior, by type of grades mostly earned in school are cell proportions from cross-tabulations and therefore do not add to 100%. Row proportions (not shown) add up to 100%.

*Based on logistic regression analysis controlling for sex, race/ethnicity, and grade in school, $p < 0.05$.
