   25-28                   Ratio of fam inc to pov threshold

Sources: FAMINCI2; FM_SIZE; NUM_KIDS
Recodes: None
Keywords: income, poverty
Notes: The family's value for this variable is assigned to each member of the
       family, thus making it a person-level variable.  The "Undefinable"
       cases, coded as 9999, consist of families where the number of
       children under age 18 in the family is equivalent to the number of
       family members. Format of data has an implied decimal (xx.xx).
       Published poverty thresholds from the Census Bureau are used in these
       calculations.
       The POVRATI2 were calculated from the top-coded family income FAMINCI2.
_____
ERNYR_I2
FSD.120
                           AGE = 18+ and EMPLOY_I = 1

                           Starting in 2001,
                           persons 18+: worked for pay last year; or
                           employment status is imputed to be employed for
                           pay

   29-34                   Person's total earnings in last year

                           Top-coded person's earnings
                           <Blank: Not in universe>

Sources: ERNYR, imputed ERNYR
Recodes: None
Keywords: income earned; last year's earnings
Notes: Universe in 1997-2000, persons 18+:
       working at a job or business last week;
       or did not work last week but worked for pay last year;
       or employment status is imputed to be employed for pay.
       Last year refers to calendar year prior to year of interview.
       Person's total earnings top-coded to the weighted average
       of the 95th percentile of the five imputed datasets.
